**Summary:** I have years of broad experience in technology that includes server administration, networking / infrastructure, application development, enterprise integration, and leadership. I want to bring my skills and experience to an organization in order to help that organization reach its goals and achieve success.

## Professional Achievements:

- Founder of Chattanooga area Microsoft focused developer user group. (Chattanooga Area .NET User Group – CHADNUG)
- Recipient of MVP Award from Microsoft for regional leadership in technology community development
- Served as board member of Atlanta-based Enterprise Integration User Group
- Two-term president of employee-led organization (Unum) that managed annual budget for clubs such as the company bowling league, golf league, and coordinated events like the annual Easter egg hunt and Christmas celebration with Santa
- Founder of local athletic social clubs for Chattanooga area youth and adults
- Provided mentoring and coaching to local area athletes at levels ranging from youth to collegiate and adults
- Created curriculum and conducted 5-day training course for middleware platform development for developers representing various business areas at Unum
- Created and delivered many presentations to peers, regional technical groups, and IT partners on topics including Enterprise Application Integration (EAI), Enterprise Service Bus (ESB), Electric Data Interchange (EDI)
- Demonstrated leadership at many levels in roles such as Team Lead, Board Member, Regional Representative, and Small Business Owner
